2. The remaining two and one-half months until August do not seem to be sufficient time to complete all of the necessary forms design and re-design work in SIPS and to obtain approval from the Director of Finance plus the coordination and approval in DDP for the overseas forms. Either the January deadline must be postponed or the forms design and coordination accelerated.

3. [REDACTED] has been sending rough drafts of payroll system forms to our staff since the latter part of 1968 and we have been preparing a facsimile product. To date we have prepared 15 payroll forms and have had 25 to 50 proof copies printed by Printing Services Division. He is now working on further revisions and intends to request new proof copies of the forms prior to their coordination and final acceptance. These semi-final revisions have not been received in Forms Management as of this writing.
